

## Alanna Weissman

My entire work experience has been with animals; as a ranch hand at a horse boarding facility, kennel attendant at a dog boarding facility, and veterinary assistant. I started as an Animal Services Officer with Contra Costa County Animal Services in 2015, promoted to Sergeant in 2019, and Lieutenant in 2021. In addition to supervising field staff, as a Lieutenant I supervise the County Animal Response Team (CART) of volunteers, serve as the liaison for the Office of Emergency Services, and oversee the field services training program. As a manager my focus is to promote excellent communication, teamwork, and a sense of community. I encourage a proactive approach to provide education and work with citizens to prevent animals from coming into the shelter.
