

Jennifer Hammond

I have worked at San Diego Humane for the past 5 years. Previously, I earned my degree in Biology (emphasis in Zoology) at San Diego State University, was an Animal Care Technician at Helen Woodward, and completed two full time internships at the San Diego Zoo Safari Park.

At San Diego Humane, I have worked in a variety of roles including Admissions Counselor, Animal Care Supervisor, and Admissions (Animal Services) Supervisor. In my current role as Behavior & Training Animal Services Manager, I manage the inventory of animals at the Behavior Center, oversee both Animal Care and Trainer staff, and develop a pathway plan for animals throughout the organization.
