

Susan Peszat

I have worked in the animal health pharmaceutical industry for 15 years and have 22 years working with municipal, rural, and nonprofit shelters and rescues. I have extensive shelter leadership experience including serving 8 years on a shelter Board of Directors, chairing annual fundraisers, training volunteers, coordinating rescue placements, and hosting community education events. I'm an experienced foster and my passion is large dogs that have special medical or behavioral needs. My pack currently includes Charlie, a rescued Shepherd mix who came from an abusive situation, and Dallas, an 89-pound senior husky foster.
