

Dan Marple

I have 25 years in the field of Animal Welfare, with both shelter and veterinary experience. I worked in a 24-hour veterinary hospital for 12 years gaining expansive knowledge of animals' medical needs, but also developed and mentored staff on ways to improve their treatment methods and build stronger relationships. I also have 13 years of shelter experience in both a Non-Profit and Municipal.

Currently, while working at the Sacramento SPCA, I have taken the initiative to create programs that foster an environment that benefits both the animals and staff.
