

Amanda McNair

I am a Bay Area native and UC Berkeley graduate. For most of my professional career I worked in healthcare administration. I was a long-time canine volunteer at my local shelter (Friends of the Alameda Animal Shelter) before switching careers. In 2021 I took the plunge and accepted a position as Behavior and Enrichment Coordinator. I am now the Animal Care Manager (and still doing lots of behavior work). My interests include enrichment, behavior modification, safety-net programs, and thru-put. I am very excited for this opportunity and look forward to working with everyone!
