

Brittany Pasquale

City of Tracy Animal Services

Animal Services Supervisor

I have worked for Tracy PD in the Animal Services Division for over 13 years. I began my career as a Kennel Aide and have promoted through the ranks. It's been exciting to watch as the industry has grown into the direction it has today. Networking with others that are in the Animal Welfare industry is extremely important, as we are each other's support network and sound wall. I look forward to all the great programs and directions that Animal Service Divisions are taking across California and our Nation. It's an exciting time to be a part of progressive sheltering efforts!
