

Mollie St. John

I am the Animal Control Supervisor for Paradise Animal Control and Shelter. I have worked there for 5 years, 4 as an Officer in the Field and Interim Supervisor for the last year. My promotion to Supervisor was in December of 2022. I was involved in the field work during the Camp Fire that devastated Paradise. My favorite aspect of being in a small town is fostering orphaned kittens. We are a little town that still holds parades during the year with many community events. I am looking forward to learning how to better equip my team to handle the ever-changing field that we work in without having burn out and increasing our community involvement.

My childhood involved all sorts of animals from dogs, cats, iguanas, to tortoises, freshwater fish, and snakes. I currently own 1 dog, 3 cats, 3 tortoises, 3 freshwater fish tanks, and 2 tegus. I spend most of my limited time off at home with my pets or my nephews.
