

Lavelle Jackson

I was an Animal Control Officer for the City of Chula Vista for 10 years and in the past year became a Supervising Animal Control Officer for the County of San Diego where I am now present. I am committed to creating a positive and enriching experience for both animals and staff who work alongside me. I have committed myself to personal and professional growth and I am consistently looking for opportunities to develop new skills and expand my knowledge. Excited to be a part of this program.
