

Chantalle Little

Chantalle moved to the Central Coast in 2009 to attend Cal Poly San Luis Obispo where she earned her Bachelors in Animal Science. Shortly after moving to SLO she noticed a paw shaped hole in her heart and was looking to volunteer at Woods Humane Society. After attending an orientation she put in an application for an Animal Caregiver opening and the rest is history. Over the years she has filled many roles from Animal and Customer Care to Surgery and Intake. She developed Woods' Shelter to Shelter Rescue Program and created their first Foster program. When she is not at Woods she finds herself surrounded by her own menagerie and enjoys hiking, horseback riding, kayaking, or finding any way to enjoy the beautiful Central Coast.
